TRESSEX 8000 GRINDING WHEEL

Lach Diamond Inc. has available the Tressex 8000 which allows efficient grind with double infeed capability of up to 0.15mm. This grinding wheel is designed to grind highspeed steel tools for use on Universal tool and cutter grinders, from stock for only slightly more than conventional CBN wheels, according to the company. For more information, contact Lach

Diamond, Inc., 3516 Roger B. Chaffee Memorial Drive S.E., Grand Rapids, MI 49508, or use the reader reply card.
