## GUIDE

### Dia-Saws

**Lach Diamond** offers a complete line of diamond saw blades. The Dia-Circular saw is excellent for sizing and trimming of board materials, including both coated and uncoated MDF and chip boards. The Dia-Panel sizing saw is ideal for sizing single boards or packages of a variety of materials, including MDF and chip boards. The Dia-Multi-blade is suited for cutting board materials for laminate and parquet flooring, panels and doors. For a free brochure, including specifications and applications for the Dia-Saw line of blades, contact:
