INDUSTRIAL DIAMOND REVIEW

2/2002

Volume 62 Number 593

LACH catalogue now on the web

The content of the LACH-DIAMANT manufacturing programme on the Internet has been enhanced by the introduction of the company's new dreborid 2002 catalogue, ready for downloading at www.lach-diamant.de

This technical collection contains many interesting facts about the present standard of hard and superhard cutting materials. The catalogue gives detailed information

LACH

dreborid®

Spanende Diamant- und CBN-Werkzeuge - Drehen • Bohren • Fräsen
Diamond and CBN Cutting Tools - Turning • Drilling • Milling
Outils d'usinage diamant et nitrure de bore - Tourner • Percer • Fraiser

about the line of standard polycrystalline diamond (PCD) and polycrystalline cubic boron nitride (PCBN) cutting tools used for economic machining of aluminium, grey cast iron, plastics, graphite, ceramics, carbides and high-alloy hardened steels.

Details are also given of solutions for controlled chip breaking when turning aluminium. The catalogue also contains a special diamond tool section for turning commutators as well as for aluminium rim manufacturing.
